-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This Office Action is responsive to the Amendment filed on January 11, 2006. The Applicant has canceled claims 1-4 and has added new claims 5-8. However, Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, this action is made final.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 5-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Romero, U.S. Pat. No. 6,589,691 B2.

Romero teaches a battery case comprising a terminal hole in a peripheral wall (Fig. 1), a flange located on interior surface of wall, and a contact member having a cylindrical mounting portion inserted through the terminal hole and having a first end riveted to an outer surface of the wall; a contact portion connected to a second end of the cylindrical mounting portion and engaging a positive terminal, the contact portion located on the flange; and a connecting portion connecting the contact to an electric wire, the connecting portion extending outwardly from the contact portion along a side of the flange supporting the connecting portion, the contact portion spaced apart from a casing of the battery (Fig. 7). It teaches the side surface of the flange is a sloping

surface (Fig. 7). It teaches the flange has a circular shape (Fig. 5). It teaches the cylindrical mounting portion is hollow (Fig. 1).

Thus the invention as a whole would have been obvious to one of ordinary skill in the art at the time the invention was made because although the prior art of record may not recite "flange", the anchor portion (ref. 1) appears to be a flange.

Response to Arguments

3. Applicant's arguments with respect to previous claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
